CASNR Alumni Update
CASNR Week 2017
Recruitment Team

With Fall 2016 enrollment numbers official, CASNR is excited to experience our twelfth consecutive year of increased undergraduate enrollment. It is also our sixth consecutive all-time high CASNR enrollment with a total of 2340 students. One of the events that contributes to our successful enrollment is the annual Experience the Power of Red visit day. This year’s event will be held on Saturday, November 5th on East Campus and will provide prospective students with a true sense of the CASNR experience. We thank each of you for your continued contributions to students, both prospective and continuing!

The CASNR Dean’s Office welcomed two new faces to the recruitment team. Taylor Hart joined us in May as our Recruitment Associate. Taylor is a recent CASNR graduate and travels throughout the state of Nebraska visiting high schools sharing information about the College’s degree programs and career opportunities.

Michael Cooley started in September as the Recruitment Coordinator. He holds a joint appointment between CASNR and Nebraska Extension. Mike was born and raised in Nebraska; he grew up in Western Nebraska in the small town of Morrill. He is finishing up his Master’s Degree in Student Affairs this May, and looks forward to meeting everyone!

CASNR Start Smart

In July, the College launched the new CASNR Start Smart online orientation course (AGRI 042). Nicole Smith, Student Development Coordinator, developed the course to help students successfully transition to the University by helping them to get a head start. The carefully developed modules focus on introducing our new students to CASNR, UNL, campus resources, and success tools. Components include how to navigate a syllabus, communicating effectively with faculty and staff, understanding the CASNR advising model, how to interpret a degree audit, academic integrity, and much more. Enrollment for Fall 2016 included 480 students with a 99% completion rate. This class is part of a University-wide initiative for all incoming freshmen and is offered as a pass/no pass course to be completed prior to the start of the fall semester.

2017 Faculty Advisory Council (FAC) Goals

Goal 1: Represent faculty voice and manage faculty input for IANR VC Search and CASNR Dean’s Search

Objectives:
- Capture faculty input and develop a set of consistent questions to ask candidates during on-campus interviews
- Recommend that FAC and CASNR Curriculum Committee be represented on the appropriate administrative search committee

Goal 2: Increase faculty awareness of Canvas migration and other new university-wide systems

Objectives:
- Disseminate information regarding Canvas migration education opportunities in conjunction with Teaching and Learning Improvement Council (TLIC)

Goal 3: Develop strategies for equipping faculty, staff and students with the personal skills for engaging with diversity and growing an inclusive and sustainable campus community

Goal 4: Restructure TLIC and Advising Improvement Committee

Objectives:
- Explore new opportunities for TLIC and the Advising Improvement Committee
- Redefine the relationship among Faculty Advisory Council, TLIC, and Advising Improvement Committee
- Offer recommendations regarding TLIC and the Advising Improvement Committee in partnership with these committees’ leadership
CASNR Curriculum Committee Update

For the 2016 Fall semester, the CASNR Curriculum Committee will address a couple of topics beyond the regular slate of course and program requests. One focal point will be consideration of unit proposals for implementing the Integrated Planning and Advising System (IPAS). For IPAS, each CASNR undergraduate program will need to identify and delineate critical requirements for progressing in the degree program and establish milestones for achieving those requirements. Another issue we are looking into involves distance courses that CASNR students take through another institution for UNL credit – what policies apply for academic integrity, grade appeals, Title IX, etc.

CIEQ Assessment Online

We are excited to announce that starting this fall semester the CIEQ Assessment Instrument will now be administered through Blackboard/Canvas for all CASNR courses. Watch your email for additional information. For questions, please contact Erin Blankenship.

Calculated Instructional and Advising FTE and Activity Insight Update

The Academic Appointment for a faculty member in the College of Agricultural Sciences and Natural Resources (CASNR) includes undergraduate and graduate instruction, academic advising, advising student organizations, CASNR and university committee service, recruitment and retention activities, community service, professional service, and textbook and instructional software development. The academic appointment is determined in a two-phased process. First, instruction and student advising are calculated, based on data supplied by the individual faculty member. Additional adjustments are made based on activity or responsibility that exceeds expectations (e.g. chairing a college committee, advising a student organization, developing a new course).

In order to provide teaching and advising information to units in a timely manner, this year we are requesting faculty enter their calculated instructional and advising FTE directly into Activity Insight. To do this:

1. Activity Insight populates the teaching data (the Scheduled Teaching screen in Activity Insight) from the NeSIS database, which contains the “instructors of record” that are entered by your unit. The data pull occurs after the census each semester (typically the second week of classes) and again after the semester is over. You will need to enter the percent participation for each course. Please check that the data for your courses are correct sometime during the semester. If they are not, please work with your unit administrator to correct them.

2. To ensure that your advising information is accurately captured, please make sure that advisee numbers (masters, doctoral, undergraduate and UCARE) are entered in the “Academic Advising” section of Activity Insight. These data are used to complete the final advising calculation.

3. Download the Instructional and Advising FTE Calculations spreadsheet from the CASNR website (http://casnr.unl.edu/teaching-casnr). The file is initially read-only; you will need to enable editing.

4. The file contains two sheets, Instruction and Advising. Be sure to fill out both sheets with your teaching advising activities, respectively.

5. INSTRUCTION: Select from the drop down menu your contract length (9 months or 12 months). Then, enter the courses you had full or partial responsibility for teaching over 2016 (Spring 2016, Summer 2016, Fall 2016) (refer to the Scheduled Teaching screen in Activity Insight). Enter the course prefix, course number, enrollment total, credit hours and participation. Participation should be a number between 0 and 1, with 1 representing 100% participation. The Instruction CHE (Credit Hour Equivalent) will be in the blue box labeled “Instruction Total.”

6. ADVISING: Enter the number of advisees you have that fall into each of the categories listed (refer to the Academic Advising screen in Activity Insight). Use either the Spring 2016 or Fall 2016 numbers for undergraduate advisees—whichever is larger. The Total Advising CHE will be displayed in the bottom row, and will also be displayed on the Instruction sheet in the blue box labeled “Advising Total.”

7. Converting CHE to FTE: To convert your Instructional and Advising CHE to FTE, divide the CHE by 24 if your contract length is 9 months and by 32 if your contract length is 12 months. These values come from the CASNR Academic Appointment Guidelines (http://casnr.unl.edu/pictures/PDFs/Faculty/AcademicAppointmentGuide.pdf), which state that 24 CHE is considered 1 FTE for 9 month appointments, and 32 CHE is 1 FTE for 12 month appointments. The Instructional and Advising FTEs should add up to the Total FTE, which is provided in the blue box in the upper right hand corner.

8. In Activity Insight: Under the “Teaching” heading, select “Teaching Goals and Goal Accomplishments” and select your item for 2016 (or create a new item for 2016). At the bottom of the page, under “Other Teaching Accomplishments,” there will be two boxes—one for Calculated Instructional FTE and one for Calculated Advising FTE. Enter your Instructional and Advising FTEs into the respective boxes. The unit administrator will then have access to this information sooner than has been possible in the past. Please note that FTE data entry into Activity Insight will be available after November 4, 2016.

Academic Adjustment Calculations

While Activity Insight can be used to record the instructional and advising information, the data needed to calculate the ‘Academic Adjustment Calculations’ are not easily extracted from Activity Insight. If you need an adjustment to your Academic FTE Calculation based on new course development, advising a student organization, or other activity (a full list may be found at http://casnr.unl.edu/teaching-casnr; under “Academic Appointment Guidelines”), you must submit an adjustment worksheet (see attachment) to your unit administrator. The adjustment worksheets are due to your unit administrator for review and approval by November 15. Unit administrators will forward all approved adjustment worksheets to Erin Blankenship (CASNR Dean’s Office) by December 1. Calculated Academic FTE reports which include any adjustments will be sent to the unit administrator at a later date. Please contact Erin Blankenship if you have questions about the academic portion of Activity Insight.
FROM THE DEAN’S OFFICE

Training Session for 2016 Activity Insight Report Completion

Activity Insight training sessions are designed to provide an overview of the system, highlight recent changes, give instructions and tips for entering context, and answer questions.

This year’s training sessions will be jointly led by Tala Awada and Jared Evert (ARD), Chuck Hibberd (EXT), and Tiffany Heng-Moss and Erin Blankenship (CASNR).

Three sessions have been schedule at Hardin Hall, room 141:

November 18 9:00-11:00 AM
November 29 9:00-11:00 AM
December 6 10:00 AM-12:00 PM

To register for one of the sessions go to the Activity Insight Resources page http://ianr.unl.edu/activity-insight-resources

Note: the Extension office will be scheduling a couple of Webinars for those who are unable to attend in person.

CASNR CARES Reminder
(Caring Attitudes and Respect for Every Student)

The place for students, parents, faculty, and staff to start when there are questions or concerns.

What happens if a student:
• Has a family or health emergency and can’t attend class?
• Needs to connect with a UNL service, but doesn’t know where to begin?
• Is struggling emotionally, academically, or personally and needs to connect with someone who can help?
• Has trouble adjusting to college or being away from home?
• Just needs someone to talk to?

CASNR CARES is the first point of contact for students, faculty, staff, and parents when there are questions, concerns or situations that affect a student’s educational experience at CASNR. CASNR CARES is dedicated to helping students personally and individually. Each student’s situation and personality are different – and so are the solutions. All referrals are held in confidence.

Who initiates contact:
Anyone. It could be the student, a faculty or staff member, or a parent. It all starts with a call to Nicole Smith, CASNR CARES Coordinator, who will put the wheels in motion. It might be simply arranging a visit with the student to see how things are going in the classroom or in life. Or it might involve introducing the student to campus resources and people who can help them navigate an academic or personal challenge.

CASNR CARES is one reason CASNR has such a high student retention rate. Students know where to go when they have questions or need help. Faculty and staff have a resource to guide students they believe need some assistance. Parents have a point person on campus to contact when necessary.

CASNR CARES: Another unique difference-maker that makes CASNR a very special experience. Please contact Nicole Smith at nicolesmith@unl.edu or 402-472-0609.

FROM THE DEAN’S OFFICE

Student Emergency Protocol

The CASNR CARES Coordinator plays an important role in the process following an emergency involving a CASNR student. Nicole Smith is a valuable resource who can facilitate communication between the student’s family, the College community and the University. If you are notified of a student emergency, please contact the CASNR CARES Coordinator (Nicole) immediately. Nicole’s contact information and the College of Agricultural Sciences and Natural Resources (CASNR) Student Emergency Notification Protocol can be viewed at www.casnr.unl.edu/teaching-casnr.

CASNR Education Abroad

The CASNR Education Abroad program experienced its highest student participation rate with a record number of 170 students (44% increase) traveling abroad. Two new faculty-led options were available including Forensic Science Studies in Sicily and PGA Golf Management in Scotland. In addition, Summer 2016 was the first year two student traveled to Sao Paulo to attend the College of Agriculture at the University of Sao Paulo in Brazil to participate in a program focused on Tropical Bio-based Production Systems. Programs planned for the 2016-2017 academic year include: Australia, Puerto Rico, England and Scotland, Namibia, Brazil, Botswana, France and Spain, China, Italy, and New Zealand.

Information on upcoming CASNR education abroad programs and guidelines can be found at casnr.unl.edu/undergraduate-education-abroad.

Global Agriculture Club: International Association of Students in Agriculture and Related Sciences (IAAS)

The Global Agriculture Club is the University of Nebraska-Lincoln chapter of the International Association of Students in Agriculture and Related Sciences (IAAS). While holding the title of IAAS presidency, the UNL chapter had the privilege of hosting the IAAS National Summit in Lincoln April 14-17, 2016. The theme of the summit was Harvesting the Heartland and included speakers from UNL and both the private and public sectors, tours of agricultural sights around Lincoln, a trade fair highlighting agricultural products from the states represented by the IAAS members in attendance, and the UNL Rodeo. The summit was attended by 50 students from UNL and other institutions across the United States.

The Global Agriculture Club can be contacted at iaasun114@gmail.com To view photos of the conference please go to facebook.com/nationalsummit2016.

Scholarships and Grants Available for Study Abroad

CASNR continues to offer scholarships and grants to students to assist with education abroad. These include Education Abroad Travel Scholarships, Kleis International Travel Grant, and the Global Access Travel Grant which provides $150 for students to help in offsetting the price of purchasing a passport. All three CASNR scholarships/grants can be found at casnr.unl.edu/undergraduate-education-abroad.

Scholarships and Grants Available for Study Abroad

Tk20 Integration

CASNR faculty should be aware of two changes in computer programs being used for assessment. We have been using PEARL for program assessment for approximately a decade, and assessment of the ACE courses has been integrated into Blackboard. Both of these assessment activities will be using the new Tk20 system starting this semester. Instructors of ACE 1, 2, and 3 courses have received orientation on how to start inputting student learning outcomes. Training for the other ACE courses should occur later this academic year. The Program Assessment Coordinators have received information on how to input data for their program assessment which is due December 15. If you have questions about the process, please contact John Markwell in the CASNR Dean's Office.

Faculty teaching an ACE course and having to utilize the new Tk20 system to report on student learning outcomes should utilize the Academic Adjustment worksheet (refer to the Calculated Instructional and Advising FTE and Activity Insight Update) to report their work on ACE. It is appropriate to use either the Service or Leadership category with the subcategories of either College Academic Service or University Academic Leadership and Service.

CANVAS Update and Training Sessions

UNL is moving from Blackboard to Canvas, with the goal of having all Learning Management System (LMS) activity in Canvas by May 2018. To get help for individuals, departments, or whole colleges, contact Jeremy Van Hof, assistant director of academic technologies, at jvanhof@unl.edu or contact the UNL Canvas team at canvas@unl.edu.

Canvas Migration Reverse Timeline

- **Summer Semester 2018:** Canvas is the only LMS. Blackboard is no longer available.
- **Spring Semester 2018:** Canvas is the default LMS of UNL. Instructors can opt in to Blackboard by contacting ITS.
- **Fall Semester 2017:** Canvas becomes the default LMS of UNL. Instructors can opt in to Blackboard by contacting ITS.
- **Summer Semester 2017:** Both Canvas and Blackboard available. LMS website my.unl.edu will give all users a choice to login to Blackboard or Canvas.
- **Spring Semester 2017:** Both Canvas and Blackboard available. LMS website my.unl.edu will give all users a choice to login to Blackboard or Canvas.
- **November 1, 2016:** Course shells for all Spring 2017 courses will be available in both Canvas and Blackboard. Instructors can choose their LMS for the Spring 2017 semester, but should only use one LMS per class.

Accessing Canvas

- Contact the UNL Canvas team at canvas@unl.edu if you need an empty Canvas course.
- Go to canvas.unl.edu and login with your Blackboard username and password.
- On November 1, all spring 2017 courses will be available in both Canvas and Blackboard. Instructors can choose which LMS to use for that semester.

Moving Content from Blackboard to Canvas

There are three options for moving content from Blackboard to Canvas.

1. **Build your Canvas course from scratch.** For those who wish to use the LMS change as an opportunity to re-think their online course content, building from scratch may be the best option. This is a good way to cull un-needed material, refresh old documents, and add new content to the course. Instructors who followed this process found it to take 4-5 hours, depending on the complexity of the course.

2. **Export your Blackboard course, then import the Bb content to Canvas.** This process can move individual items (such as tests) or an entire course all at once. Moving a complete course will require some re-organizing once the content is in Canvas. The pilot participants found this to take 2-3 hours, depending on the complexity of the course.

3. **Ask ITS for migration support.** ITS can move your course for you if necessary.

Archiving Blackboard Content

Users are encouraged to archive their old Blackboard courses and store the files on Box. ITS can help with that too.

Instructional Designers Can Help Too

Terry Workman, instructional designer for CASNR, can also assist with the transition to Canvas.

“Lunch and Learn” Brown-Bag Advising Sessions

CASNR will be hosting a series of professional development opportunities for our advisors. Our goal is to engage our advising community throughout the academic year rather than only once a year through the traditional advising workshop.

The dates for these sessions will be October 28, January 27, and March 31 so please mark your calendars. All sessions will be held from 12:00-1:00 PM in the Nebraska East Union. Topics of discussions will include: CASNR advising updates, best practices for student advising, the new Integrated Planning and Advising System (IPAS), and integration of co-curricular and experiential learning into the degree program.

FROM THE DEAN’S OFFICE

IT’S Support for the LMS Change
There are many different ways that the UNL Canvas team will work to make this transition as smooth as possible. Please contact Jeremy Van Hof for additional information.

ADVISING UPDATES

Bachelor Degree Candidacy Status Hold

The first Bachelor Degree Candidacy Status hold was implemented this semester. Information on the Candidacy Status was circulated to all advisors in September.

The following message was sent to students who have reached senior status (89+ credit hours) but have not met all of the criteria for Candidacy Status:

Subject: Advisor-Required Registration Hold – Candidacy Status in the College of Agricultural Sciences and Natural Resources (CASNR)

Dear <Student Name>,

Starting in Fall 2007, CASNR students enrolled in undergraduate degree programs within the college were provided a “road map” for academic success while on campus. The “road map” was called “Bachelor Degree Candidacy Status”. The rationale behind the candidacy status was:

• Ensure CASNR students move through their academic experiences on logical, developmental paths that allow them to maximize the educational impact of the curricula;
• Enhance student success by emphasizing the importance of prerequisite knowledge; and
• Decrease the number of graduating seniors that must complete core requirements during their final semesters in our college.

There is a specific section at the beginning of your degree audit that describes the requirements of the “Bachelor of Science Candidacy Status”. You are receiving this email because you have achieved senior status (89+ credit hour), but are missing one or more of the requirements for the Bachelor Degree Candidacy Status. An “Advisor-Required” registration hold has been placed on your student record. This hold will prevent you from registering for your Spring 2017 classes. The hold on your registration will be removed once you satisfy the candidacy requirement or work with your advisor to develop a plan for achieving candidacy status. Your plan for satisfying candidacy status should be entered into MyPLAN. Please work with your advisor to adjust your current course schedule or develop a plan for achieving candidacy status. If you have any questions, please contact the CASNR Dean's Office at 402-472-2201.

The following message was also sent to student who have earned between 75-88 credit hours as a warning that they were approaching senior status but have not met all of the criteria for Candidacy Status:

You are receiving this email because you have earned between 75-88 credit hours as a warning that you are approaching senior status but are missing one or more of the requirements for the Bachelor Degree Candidacy Status. Please work with your advisor to ensure that you are enrolled in the appropriate courses to achieve candidacy status. If candidacy status is not achieved by the time you reach senior status (89+ credit hours), an “Advisor-Required” registration hold will be placed on your student record. This hold will prevent you from registering for classes for subsequent terms. If you have any questions, please contact the CASNR Dean’s Office at 402-472-2201.

Online CDMA

Over the past several months the Registrar’s Office has been developing the Online CDMA (change of degree, major, advisor) form. CASNR has been asked to pilot this project. The College is excited for this opportunity and plans to begin the piloting project this academic year.

Upcoming Teaching and Learning Professional Development Opportunities:

Learning How to Learn: Monday, November 7 from 11:45 AM – 1 PM in the Nebraska East Union
Dr. Barbara Oakley, a Professor of Engineering at Oakland University in Rochester, Michigan; a Visiting Scholar at the University of California, San Diego; and Coursera's inaugural “Innovation Instructor,” will be sharing an exciting presentation on “learning how to learn.” The luncheon and presentation are part of the New Faculty Success Series. Please contact Dan Cotton if you are interested in attending.

Integrating Teamwork and Active Learning into the Classroom: Monday, November 7 from 2:00 PM – 3:30 PM in the Nebraska East Union
Dr. Barbara Oakley, a Professor of Engineering at Oakland University in Rochester, Michigan; a Visiting Scholar at the University of California, San Diego; and Coursera's inaugural “Innovation Instructor,” will be sharing an exciting presentation about integrating teamwork and active learning into the classroom.

USDA-NIFA Grant Workshop: Thursday, December 8 from 2:00 – 3:30 PM in the Nebraska East Union
External funding opportunities for development of education and outreach programs with K-12 students and teacher in formal, informal and non-formal learning environments.

Interim Teaching and Learning Workshop: Friday, January 6, 2017 in the Nebraska East Union

Upcoming Seminars

We are also in the process of planning at least two additional seminars for the spring semester. One will be focused on the new Canvas LMS that will be phased in for all courses in the near future, and the other will be on using the new Tk20 computer system for faculty who are involved in submitting Biennial Program Assessments or in teaching ACE courses. Watch for the announcements on these seminars. If you have ideas for additional seminars related to teaching and learning, contact John Markwell in the CASNR Dean’s Office.
CASNR Alumni Update

Ninety-three inscribed bricks were installed in the Legacy Courtyard this fall making a total 506 inscribed bricks installed since 2014. The CASNR Alumni Brick Program has raised over $173,000 for an endowment to be used for CASNR student scholarships.

The CASNR Alumni Football Reunion and Silent Auction was held on October 1st in the Nebraska East Union. Over 300 people enjoyed fun, friendship, and free soup and cinnamon rolls. The silent auction was a success and raised over $3,842 to be used for CASNR incoming freshman scholarships.

Burr Fedde and Friends Reunion will take place on June 10, 2017. For details and registration information, please see casnr.unl.edu/burr-fedde-reunion.

The 2016 Henry Beachell Distiguished Alumni Award was presented to Dr. Raymond Ward at a dinner held Wednesday, October 12th. Dr. Ray Ward is president and co-owner of Ward Laboratories, Inc. He is an ARCPACS certified Professional Soil Scientist (CPSS) with a Ph.D. in soil fertility from South Dakota State University (1972). Dr. Ward earned his bachelor’s and master’s degrees from the University of Nebraska-Lincoln, receiving those in 1959 and 1961, respectively. He was honored for a lifetime of professional achievement and dedicated service in support of Nebraska’s agriculture benefiting the College, the University and the industry.

Each year, the Nebraska Alumni Association, Scarlet Guard, and the UNL Chancellor’s Office sponsor Masters Week as one of the Alumni Recognition Events. Masters Week is an opportunity for our accomplished alumni to return to campus and share their experiences and knowledge with students. The 2016 Masters Week Candidate for the College of Agricultural Sciences and Natural Resources is Jennafer Glaesemann, DVM of Beatrice, NE. Jennafer received her Bachelor of Science in Animal Science from the University of Nebraska in 2007. She went on to complete the Professional Program in Veterinary Medicine in 2009 and received her Doctor of Veterinary Medicine degree from Iowa State University in 2011. Masters Week will take place November 9-12.

The CASNR Salute Ceremony will be held on Friday, December 16 at 4:00 pm in the Nebraska East Union. The CASNR Senior Send-Off will be Saturday, December 17 at 7:30 am in the Club Lounge at the Pinnacle Bank Arena.

Two East Campus Residence Hall preview events will take place this fall in the Nebraska East Union. The first event was held October 19 for current Burr/Fedde residents. This was their opportunity to get a glimpse of what the new residence hall will look like and reserve a sign-up time to select their room for next year. The second event, scheduled for November 2, is open to all interested students, staff, faculty and stakeholders. For more information, please go to housing.unl.edu/EC-Hall-Open-House.
